

VISIT MIKAELS OASIS!

Welcome to my 875 sqm garden in Höganäs which I started working with in 2008. My name is Mikael and I work as a patrolman at a travel terminal. In order to be able to cope with this demanding job, my garden acts as my form of relaxation.

As well as my passion for gardens, I enjoy riding my motorbike and working out at the gym. My wife Eva and I have two grown-up daughters and a dog, Zmulan.

I am inspired by different garden styles, which is why my garden is divided into three different areas; landscape, Mediterranean-inspired and garden plot. Transforming scrap into decoration is a fun feature of my garden, and makes my garden special and personal.

Other information:
